

Air-driven diaphragm pump Duodos

Transfer without electricity

- Air-driven diaphragm pump with no electrical components
- Transfer of viscous, shear-sensitive and outgassing media
- Self-priming
- Safe for dry running
- Capacity up to 6,700 l/h
- Maximum back pressure of 7 bar
- Capacity can be regulated via compressed air
- PP or PVDF body material

Air-driven diaphragm pump Duodos

Type	Pump capacity max.	Air consumption
Duodos 10	650 l/h	0.5 - 11 m ³ /h
Duodos 15	2,000 l/h	3.5 - 27 m ³ /h
Duodos 20	3,000 l/h	7.0 - 34 m ³ /h
Duodos 25	6,700 l/h	8.5 - 77 m ³ /h
